HAZM 800

RUST-OFF

PRODUCT DATA SHEET

PRODUCT DESCRIPTION

HAZM 800 is a liquid, organic acid-type rust and scale remover used on metal. It dissolves rust and scale of almost any kind quickly and easily, leaving the surface clean and rust inhibited. Although acidic, the product gives off no toxic fumes and is completely biodegradable.

TYPICAL PHYSICAL PROPERTIES

Appearance:	Pale yellow liquid
Viscosity at 24°C:	40 - 45
Specific gravity:	1.15
pH:	Acidic
Rust & Scale Removal:	Excellent
Recommended Use Temp.:	Ambient to 60°C

PRODUCT APPLICATION DETAILS

For rust removal: Mix 1 part of water to 1 part **HAZM 800**. Remove loose grease on the substrate with **HAZM 100-BIO KLEEN**, before immersing it in the solution. This eliminates contamination and extends the life of the solution. When parts are clean of rust and scale, remove them from solution. Rinse immediately with water.

For scale removal: Hard water scale and stone can be removed from tanks and equipment with **HAZM 800**. Use a concentration of 1 part water, to 1 part **HAZM 800**. This solution can be heated for quicker cleaning results. Cleaning time is from 2 hours to 5 hours, depending on the degree of scale formation. Can be used on iron, copper, brass and steel. Rinse thoroughly with water once scale removal is complete.

PRODUCT PACKAGING DETAILS

30 - Liter Drum

PRODUCT HANDLING DETAILS

Keep container tightly closed and in upright position.
